PRESS RELEASE

ROBERT VAN DE KERKHOF SUCCEEDS NECAT ALTIN AS CIRFS PRESIDENT

Robert van de KERKHOF has been elected by the CIRFS members to take on the role of President at today’s AGM.

He succeeds Necat ALTIN, General Manager of Korteks and Head of Zorlu Holding Textiles Group, whose mandate has expired but who will remain a member of the Board as past-President.

Necat ALTIN comments:

“I am very pleased that Robert van de KERKHOF has been unanimously elected to follow me as CIRFS President.

He has been actively involved in CIRFS work for many years, amongst others in the Board, more recently as its Vice-President. Robert van de KERKHOF has a long experience and a very successful record in the man-made fibres industry, and is currently heading the performance of Marketing and Sales, Corporate Sustainability and Supply Chain as the Chief Commercial Officer of the Lenzing Group, an innovative and world-leading Austrian company. He has on many occasions highlighted the indispensable contribution of CIRFS to the man-made fibres industry’s development in Europe and how CIRFS can support the industry in meeting its current and future challenges in a global world.

Robert van de KERKHOF adds:

“Necat ALTIN has strongly supported the association in his period as President, showing how CIRFS can play a key role for the industry by adapting to a constantly changing and very competitive environment. I look forward to continuing this mission over the next three years.

“The man-made fibres industry, in Europe and also globally, is faced with many challenges such as international trade tensions and now the Covid-19 crisis. Our European industry through has numerous strengths. Not only is it the most innovative and the most sustainable worldwide, but it also manufactures highly specialized, quality and green products, which provide the base for a bright sustainable future. CIRFS will continue to actively work to help the industry build on these strengths.”
Notes to Editors

1. **CIRFS** is the association for Europe’s € 10.5 billion man-made fibres industry, representing the industry to the European authorities and providing the industry with a wide range of services. Its members cover more than 70% of European man-made fibres output.

2. **The Lenzing Group** is a global leader in innovative wood-based cellulosic fibres headquartered in Austria and stands for the ecologically responsible production of specialty fibres made from the renewable raw material wood. As an innovation leader, Lenzing is a partner of global textile and nonwoven manufacturers and drives many new technological developments.

   The Lenzing Group’s high-quality fibres form the basis for a variety of textile applications ranging from elegant ladies clothing to versatile denims and high-performance sports clothing. Due to their consistent high quality, their biodegradability and compostability Lenzing fibres are also highly suitable for hygiene products and agricultural applications.

   The business model of the Lenzing Group goes far beyond that of a traditional fibre producer. Together with its customers and partners, Lenzing develops innovative products along the value chain, creating added value for consumers. The Lenzing Group strives for the efficient utilization and processing of all raw materials and offers solutions to help redirect the textile sector towards a closed-loop economy.
